# New Immunization Laws for Schools, Child Care, and Early Childhood Programs Begin September 2014

On Sept. 1, 2014, changes to Minnesota's Immunization Law will take effect. The changes were made to be more closely aligned with the current Advisory Committee on Immunization Practices (ACIP) recommendations.

Medical and conscientious exemptions are still allowed under the law.

## New Vaccine Requirements

The new vaccines that will require documentation of immunization or a legal exemption include:

- **Hepatitis B** – For all children over 2 months old enrolled or enrolling in child care or an early childhood program.
- **Hepatitis A** - For all children over 12 months old enrolled or enrolling in child care or an early childhood program.
- **Tdap** - For all students entering seventh grade. Students in eighth through 12<sup>th</sup> grade must show documentation if the school requests it. *This replaces the Td immunization requirement.*
- **Meningitis (meningococcal)** - For all students entering seventh grade. Students entering eighth through 12<sup>th</sup> grade must show documentation if the school requests it.

## Changes to Previous Vaccine Requirements

- **Varicella** – Must have received varicella vaccine by 15 months of age to enroll in child care or early childhood programs. This applies to children turning 15 months old on Sept. 1, 2014 or after.

Additionally, the law clarifies that if a child had varicella disease:

- Before 2010, the parent or guardian needs to provide the month/year of the disease and their signature. A provider's signature is not required.
- After 2010, a provider's signature is required.
- **Polio and DTaP** – Starting Sept. 1, 2014, children enrolled or enrolling in child care, early childhood programs, and kindergarten through 12<sup>th</sup> grade and are completing their polio or DTaP series must have had their final:

- **Polio** dose (usually fourth dose) on or after their fourth birthday
- **DTaP** dose (usually fifth dose) vaccine on or after their fourth birthday.

Remember, this change takes effect on Sept. 1, 2014, so incoming kindergartners for the 2014-2015 school year who have completed their polio and DTaP series are exempt. This change will have a bigger impact on incoming kindergartners for the 2015-16 school year.

Note: This change doesn't apply to children in upper grades, in other words, a review of records for children in first through 12<sup>th</sup> grade isn't necessary.

- **Kindergarten through 12<sup>th</sup> grade** - The immunization law now specifies that students in all grades have documentation for all required vaccines. If the school requests immunization records for any student (K-12), parents must comply by providing the immunization dates or a legal exemption. The requirement for schools to report compliance at kindergarten and seventh grade to MDH remains unchanged.

## Early Childhood Programs Now Included

New to Minnesota's Immunization Law are early childhood programs which include programs that provide instructional or other services to support children's learning and development and:

- Serve children from birth to kindergarten.
- Meet at least once a week for at least six weeks or more during the year.

Children enrolled or enrolling in these types of programs must provide proof of immunizations or have a legal exemption for:

- DTaP
- Polio
- MMR
- Hib
- Varicella
- Pneumococcal (2-24 months)
- Hepatitis A
- Hepatitis B

Note: Early Childhood Special Education (ECSE) was previously included in the Immunization Law.

# Are Your Kids Ready?

## Minnesota's Immunization Law

**Immunization Requirements** Use this chart as a guide to determine which vaccines are required to enroll in child care, early childhood programs, and school (public or private).

Find the child's age/grade level and look to see if your child had the number of shots shown by the checkmarks under each vaccine. Children birth to 2 may not have received all doses. Look at the table on the back, it shows the age when doses are due.

Birth through 4 years Early childhood programs & Child care	Age: 5 through 6 years <sup>①</sup> For Kindergarten	Age: 7 through 11 years For 1st through 6 <sup>th</sup> grade	Age: 12 years and older For 7 <sup>th</sup> through 12 <sup>th</sup> grade
Hepatitis A (Hep A) ✓✓			
Hepatitis B (Hep B) ✓✓✓	Hepatitis B ✓✓✓	Hepatitis B ✓✓✓	Hepatitis B <sup>⑥</sup> ✓✓✓
DTaP/DT ✓✓✓✓	DTaP <sup>④</sup> ✓✓✓✓✓	✓✓✓ tetanus and diphtheria containing doses	Tdap <sup>⑦</sup> ✓ at 7th grade
Polio ✓✓✓	Polio <sup>⑤</sup> ✓✓✓✓	Polio ✓✓✓	Polio ✓✓✓
MMR ✓	MMR ✓✓	MMR ✓✓	MMR ✓✓
Hib ✓			Meningococcal <sup>⑧</sup> ✓ at 7th grade & at ✓ age 16
Pneumococcal <sup>②</sup> ✓✓✓✓			
Varicella <sup>③</sup> ✓	Varicella <sup>③</sup> ✓✓	Varicella <sup>③</sup> ✓✓	Varicella ✓✓

### Immunizations recommended but not required:

#### Influenza

Annually for all children age 6 months and older

#### Rotavirus

For infants

#### Human papillomavirus

At age 11 -12 years

- ① First graders who are 6 years old and younger must follow the polio and DTaP/DT schedules for kindergarten.
- ② Not required after 24 months.
- ③ If the child has already had chickenpox disease, varicella shots are not required. If the disease occurred after 2010, the child's doctor must sign a form.
- ④ Fifth shot of DTaP not needed if 4<sup>th</sup> was after age 4. Final dose of DTaP on or after age 4.
- ⑤ Fourth shot of polio not needed if 3<sup>rd</sup> was after age 4. Final dose of polio on or after age 4.
- ⑥ An alternate 2-shot schedule of hepatitis B may also be used for kids from age 11 through 15 years.
- ⑦ Proof of at least three doses of diphtheria and tetanus vaccination needed. If a child received Tdap at age 7-10 years another dose is not needed for 7th grade. However, if it was only a Td, a Tdap for 7th grade is needed.
- ⑧ One dose is required for 7th grade, a second dose at age 16 years (10th/11th grade).

**Exemptions** To go to school in Minnesota, students must show they've had these immunizations or file a legal exemption with the school.

Parents may file a medical exemption signed by a health care provider or a conscientious objection signed by a parent/guardian and notarized.

**Looking for Records?** For copies of your child's vaccination records, talk to your doctor or call the Minnesota Immunization Information Connection (MIIC) at 651-201-5503 or 1-800-657-3970.
